

*Steve Chisholm, director of clinical services, prepares to distribute the new materials to the various clinics and sites at Northeast Behavioral Health*

## **The Peter and Elizabeth C. Tower Foundation Funds Clinical Resources for Northeast Behavioral Health**

**Peabody**--The 2011 Mental health Reference and Resource Materials Mini Grant funds the purchase of clinical reference and resource materials to build the capacity and knowledge of health providers who work for organizations that provide mental health services for children, adolescents, or young adults.

Northeast Behavioral Health will use the awarded funds to purchase a range of training materials, guides and publications to be used in staff education and training—with a focus on those programs that work with children and teens.
